

HOW TO BUY A MATTRESS

We carry three major mattress brands - [Sealy](#), [Stearns & Foster](#) and [Tempurpedic](#), as well as several economy brands. They are on display in our showroom, or you can visit a retailer near you that carries these brands.

When shopping for a mattress, be prepared to spend enough time to make sure the one you select is right for you. We would suggest that you even bring your own pillow. Once you find a mattress that you would like to purchase, we will need the following information:

- What was the name of the store where you saw the mattress?
- What was the brand name and model name on the mattress?
- What version of the mattress do you like?

Typical versions are: Plush, Firm, Luxury, Plush, Pillow Top, etc.

- What size mattress do you need? (Twin, Full, Queen, King or California King)
- What size box spring will you need? (Standard, Low-Profile or Split)

The thickness or height of your mattress may affect which one you choose as well as the location where the box spring is going in your home.
